SA RHEUMATIC HEART DISEASE CONTROL PROGRAM

acute

STOP STOP

품 품

rheumatic rheumatic

- Acute rheumatic fever and rheumatic heart disease are notifiable in South Australia
- All patients should be on a current management plan according to the Australian guidelines
- Notify the Program of Benzathine benzylpenicillin (Bicillin LA®) administration, cardiac, echocardiography and dental reviews
- The Program can support you with patient management and education

Contact details:

Phone: 08 7425 7146 or 7425 7156

Fax: 08 8226 6648 Email: rhd@sa.gov.au

SA RHD Register forms and information are available on the SA Health website: www.sahealth.sa.gov.au/rhd

www.saneaiiii.sa.gov.au/iiid

For further information or resources about ARF or RHD and to access the Australian guidelines, go to:
