

Aboriginal families STUDY

The Aboriginal Families Study is looking at the health and wellbeing of over 300 Aboriginal families in South Australia

The information we've received so far has been used to inform policy and services, and advocate for changes to benefit Aboriginal people.

What are we doing?

We're getting ready to talk to families in the study. The young people are now 14- 17 years.

To help us get the questions right, we are inviting people to complete a draft questionnaire and let us know what you think

Who can get involved?

- Aboriginal people aged 14-17 years old
- Mothers and carers of Aboriginal young people aged 14-17 years

You will receive a gift card as a thank you for your time.

If you would like to know more or get involved, please contact us!
